

# HEALTH AND HUMAN SERVICES AGENCY

A BRIEF OVERVIEW

# INTRODUCTION

- One of five groups or divisions of the San Diego County government.
- Provides a broad range of health and social services, promoting wellness, self-sufficiency, and a better quality of life for all individuals and families in San Diego County.
- Integrates health and social services through a unified service-delivery system, which is family focused and community-based.

# HISTORY

1996 – Six departments merged to become the Health and Human Services Agency

1. Health Services
2. Social Services
3. Veterans Services
4. Area Agency on Aging
5. Commission on Children Youth and Family

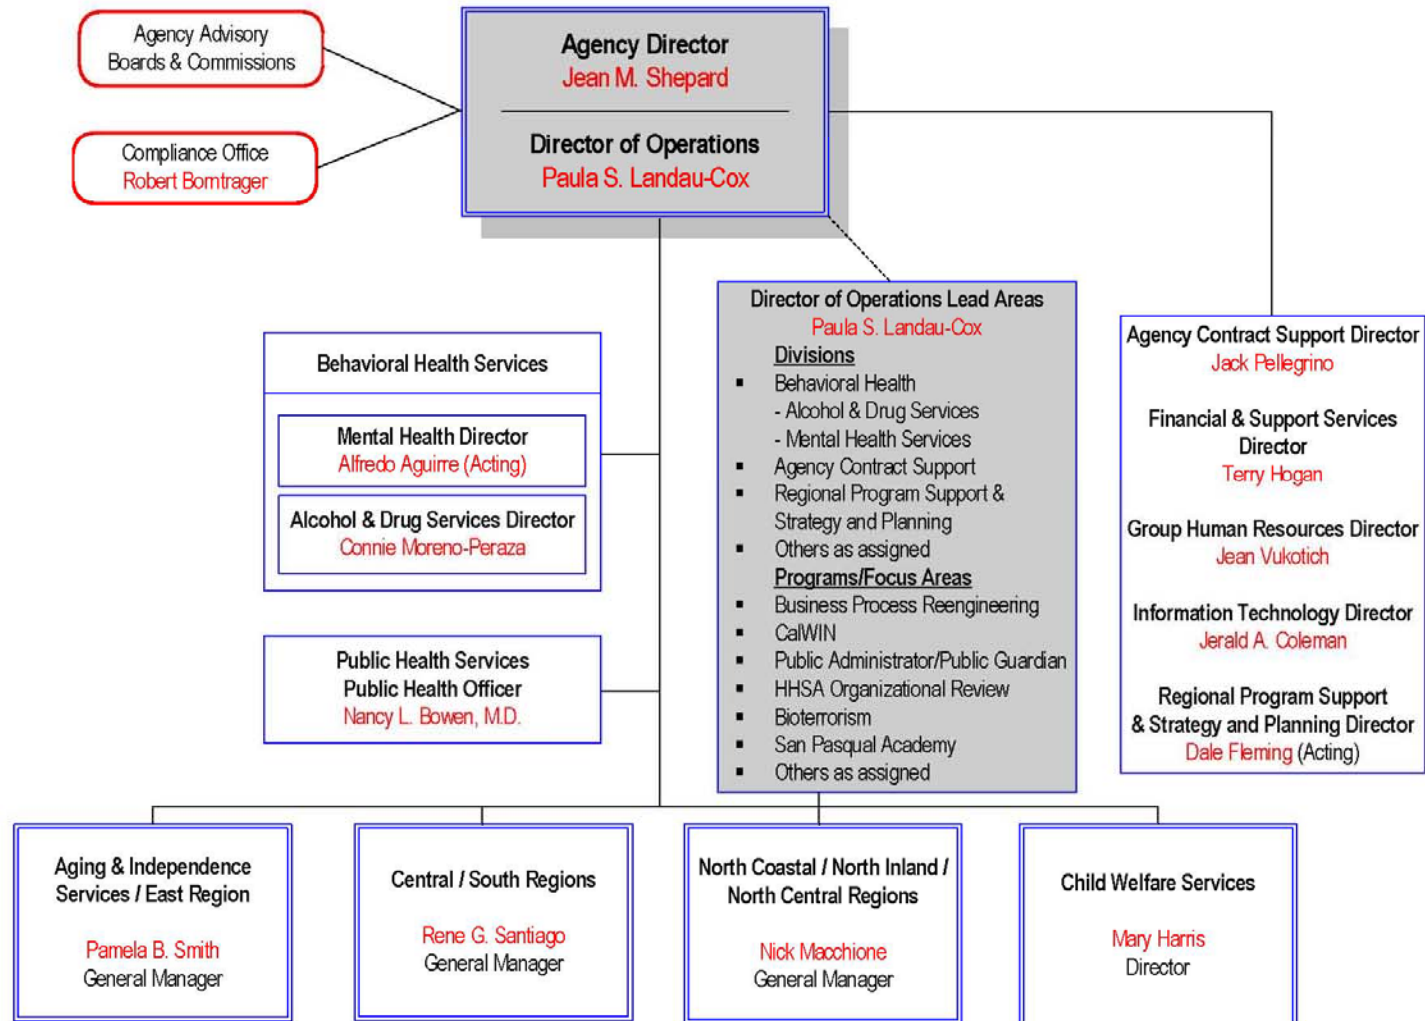

1998, another organization was placed within the Agency  
– Public Administrator and Public Guardian.

By bringing these many services and programs "under one roof," the delivery of health services and social services could be streamlined and integrated.

# HISTORY

- To better meet the needs of San Diego County's diverse populations, six geographic service regions were established:
  - Central
  - East
  - North Central
  - North Coastal
  - North Inland
  - South
- Some services are in higher demand in one region than they may be in another, and this regional system allows the Agency to focus services in areas where they are needed, to provide maximum efficiency.
